HAVAS

Rome, 27th.—In answer to an interpellation in the Senate, Signor Crispi, President of the Cabinet, declared that the Triple Alliance would be maintained, and, as a strong argument in favor of that policy, stated that it was less onerous to the nation than a state of neutrality that would entail very heavy expenditure to place Italy in a position to face any emergency that might arise.

Brussels, 27th.—Graf Alvensleben, German Minister at this Court, has refused the portfolio of Foreign Affairs offered to him by General Caprivi, Chancellor of the Empire.

Berlin, 27th.—Prince Bismarck, on a visit to Emperor William, was enthusiastically acclaimed by crowds of people on his arrival at and departure from the Imperial Castle.

GALVESTON.

Berlin, March 26th—It is said that Caprivi on entering the residence deserted by Bismarck exclaimed :—"I shall probably not remain long here, for I cannot sacrifice my honest opinion to gain a coronet."

Bismarck deposited all his orders, stars, crosses, and medals in the Imperial Bank, and kept only the "Toison d'Or" and the Black Eagle. Bismarck is supposed to have said:—"No more medals nor uniforms for me: you have forced me into retirement where I shall need only my frock-coat and my iron cross."

Bismarck said in an interview yesterday:—"You will probably never again see me in Berlin."

Count Herbert Bismarck's resignation was accepted, and Count Alvensleben appointed in his stead.

Count William, Prince Bismarck's youngest son, has resigned the Hannover Regency.

This morning the Emperor held a farewell interview with Prince Bismarck for three-quarters of an hour. A great crowd cordially greeted the Prince on his way to the Palace.

In the Lower House of the Prussian Landtag General Caprivi read the acceptance of Count Herbert Bismarck's resignation, and his own appointment to the post held by Prince Bismarck.

Paris, 26th.—*L'Univers* states that General Caprivi hinted at a wish to entertain friendly relations with the Vatican.

The Cabinet met yesterday to deal with the protests lodged by several French Chambers of Commerce against the North American Tariff Bill.

Copenhagen, 26th.—The Minister of War has announced his determination to refuse employment to Socialists in the workshops of the State, on the plea that they are under foreign influence.

Liverpool, 26th.—There was a meeting yesterday of the dock strikers, Michael Davitt present. The latter spoke and promised the help of the Knights of Labor and other North American leagues.

London, 26th.—The *St. James's Gazette* announces the imminent retirement of Kalnocky.

Paris, 26th—Republican and monarchist leaders urge President Carnot to release the Duke of Orleans.

Washington, 27th.—In the discussion on the monetary conference in the Pan-American Congress yesterday, no resolutions could be arrived at. The delegates for Chile, Columbia, Honduras, and Bolivia, propose :—to establish an international monetary union, on the basis of an international silver coin: this to be the legal money of the countries that join the Conference. To give force to this plan, it is suggested that a year after the meeting or conference, a committee of delegates be named to decide on the quantity, value, and proportion of that currency to gold.

THE GOVERNMENT AND THE COMMERCIAL BODY

Bankers and merchants are still studying Minister Pacheco's answer to the collective petition of the commercial body; they are wondering if they have been the victims of a practical joke, and if so, in the midst of all their financial perplexity, the Minister must have all the fun to himself, for the public have failed up to the present to see the laughable side of this collective petition and the strictly individual answer it has evoked. Animated by the very best intentions, inspired with the ingenuous conviction that the Government failed to see the proper financial course, and confident that the essence of their collective wisdom, as condensed in the measures they mooted, would cure all the evils of the situation, the bankers and merchants totally overlooked the fact that Minister Pacheco would sit as judge on their excellent counsels. With a few strokes of the pen the Minister has dispensed with the gratuitous advice of the bankers and merchants; with polite irony he has shown them that the Government has tried all the measures they so patriotically put forward in their collective petition; and he concludes his epistle with the galling assurance that the Government is quite aware of its responsibilities as well as of its ability to deal with the situation of the country. There is a cut oblique in those assurances that can escape the notice of none. The Minister, after all, is human and could not resist the temptation of dealing this blow at his excellent advisers, whether bankers or merchants.

It may be fairly assumed that Dr. Pacheco does not need the advice of the commercial community. He has held for many years the portfolio of Finance and knows better than any other man the actual condition of the nation's finances. From his ministerial chair he takes in a vast survey of affairs far beyond the limited scope of a banker's parlor or a merchant's office. To offer such a man advice argues a certain financial presumption of superiority on the part of our friends, the bankers and merchants, that must have tickled the fancy of the Minister. The result we see in the lamentable failure of the petition of the commercial body: not that the advice contained in that petition was not sound, nor to the point; not that merchants and bankers, as well as people in general, are not fully aware of the dangers of the situation and are at liberty to expound their measures for a cure of the financial evil; not that merchants view a situation merely from a standpoint of their own, limited, local and individual interests, nor that a banker's views are not above the evolution of deposits and discounts, of exchange and account current: no, the secret of the failure of the petition lies in the superficial view taken of the situation of the market, in the reckless manner in which the petition was drawn up, laying the whole commercial body open to the ministerial rebuff so diplomatically yet forcibly administered; finally, the fiasco lies in the off-hand manner in which advice is given when not asked. It is a lesson, and the commercial body will not forget it for a long time to come. The Government will not reap any popularity, and the commercial community will be slow to pardon the "snubbing."

LONDON LETTER.

POSTSCRIPT.

(From our Own Correspondent)

Feb. 14th, 10 p m.

At this moment the debate is going on in Parliament on the address, and I see by the telegraphic reports that Mr. Parnell is fighting away on the subject of coercion, and if one had nothing else to write about that subject would fill a column. But I am overwhelmed with matter, and I fear I have overwhelmed you. The escapade of the Duc d'Orleans, the "menus" of his sumptuous dinners in the Conciergerie, his little history as an unruly boy pulling his sister's hair in church and kicking and getting kicked by his tutor, his trial and sentence to two years' imprisonment, the probability of President Carnot sending him very shortly to his mother, the Orleanist agitation in Paris, the stupidity of the Orleanist party, the stability of the Republic—are subjects upon which a two-column romance might have been written and would have come in well under ordinary circumstences; but no sooner have you got your materials ready than out comes Imperial Socialist Rescripts in Germany, for which all other subjects are set aside. On that question we hear to-day that Prince Bismarck is decidedly opposed to the rescripts, and that the Chancellor's exclusive rule is over. The young Emperor intends to govern in his own way. There is a subject for a letter. But then there is the opening of Parliament, the debate on the question of Privilege, the majority for the Government of only 48, and the "ipsissima verba" of Mr Smith's apology to the leader of the Irish party. If you find them in the sea of copy I send you, well and good; for if it were possible I would rather condense for you the debate on the Portuguese question and enlarge upon Lord Salisbury's plea for being so peremptory in demanding a reply from the Lisbon Government in twenty-four hours, because, as he said, if he had waited longer there might have been no Government to get an answer from at all. He had a suspicion that the Portuguese were about to turn out their monarch and form a Republic. The Portuguese Conservative papers seem to have the same fears and say that the anti-English demonstration is becoming "comic" and advise the people to attend to their own affairs. Anarchical and Socialist papers have already been suppressed. As for the quarrel between Serpa Pinto and Johnson and Buchanan and the Scotchmen in Nyassa land, for it all comes to that, it seems that Pinto was too sharp for them, and that is saying a great deal; but he overdid his part, and it will be a long time before we know the real truth, and before the question in the Shiré and another rising one in Delagoa Bay are settled between England and Portugal.

But, good gracious! I cannot stop to talk about Portugal. There is Mr. Isaacs, M.P., surveyor and architect, 3 Pembridge Square W., who was acquainted with a young lady of "prepossessing appearance" since she was 15. She is now 22. He has been most liberal to the young lady—has, in fact, thrown thousands of pounds into her lap, but somehow it was not enough. She invited him down to Richmond where she was living, took him into a room, shut the door, forked out a revolver and, putting two documents before him, threatened to shoot him if he did not sign them. He signed one and refused to sign the other. Thereupon the allegation is she shot him, wounding him in the elbow. This occurred in October last, it appears. Mr. Isaacs, for some reason, prosecutes the woman only now; and she says the shooting was an accident during a struggle for the paper. It is not, however, explained why she had a revolver at all; she is committed for trial, and we shall have all the circumstances in due time.

Then there is the crusade of the *Financial News* against the Central Argentine Railway. I send you three or four articles on the subject, and may send you more next week; but I am quite sure that by this mail you will be overloaded with copy. For that reason I had better bring these mere indications of the news of the day to an end. Some of the cuttings I had prepared and have referred to on the Duc d'Orleans affair and on the debate on Privilege I have been obliged to suppress for want of room.

Until to-day we have had during the week cold but dry and bright weather in London. All signs of influenza and colds have vanished.

ADDITIONAL NOTES.

In the *Times* of to day (15th February) Professor Tyndall continues his controversy with Sir William Harcourt in reference to the professor's previously expressed opinion of Mr. Gladstone. After reviewing his opinions formulated in the vigorous air of the Alps, he reiterates his opinion of the G. O. M. in these remarkable words: "Here upon the Surrey moors my views are still the same. Judged by the consequences of his policy, and without regard to his intentions, I still hold Mr. Gladstone *to be the wickedest Englishman of our day and generation*".

This is the amiable verdict of "Respectability" as incarnate in our "philosopher" of the laboratory; or as Kingsley might have said, "of the lavatory". Professor Tyndall personally is not only of the "gummy", "toothy" type visible in the good-humoured greed of a W. H. Smith, or the pragmatical selfishness of a John Walter; his face is in form strongly suggestive of the quadrumana; and it is certainly a remarkable fact that many of our great scientists possess the same facial type. It probably indicates a prehensile mind of primitive strength that has gained additional vitality by absorbing the energy no longer required in a tail but recently rubbed off. Mr Tyndall seems to glory in personalities. He will not object to my eminently scientific portraiture of himself.

The Emperor's State Council to consider the Labour Question has met in full fig in the Schloss at Berlin. Prince Bismarck was present and introduced to the Emperor various members of the Council. The Emperor's speech is reported in the *Times*. It was guardedly free from any indications of his intentions being more than to summon the Council to take part in an ordinary official inquiry into the condition of the working classes, whom, he is reported to have said, he hoped "to reconcile to their social lot", and intimated if they did not choose to be reconciled, they may look out for squalls. At the conclusion of the Imperial speech, Prince Bismarck begged the Emperor to dismiss the Council, which he did, and no doubt the Chancellor breathed more freely, thanking Heaven that they had got out of the mess so far. But the mischief is done. The Imperial and official recognition of Socialist aims can never be recalled or redeemed by the tramp or the fire of all the Imperial horses or all the Emperor's men. His German Majesty is in the position of Humpty-dumpty.

The *Times* in a leading article says :—"Whilst the German Emperor is plunging with characteristic impetuosity into the work of labour legislation, we are laying solid foundation for a right understanding of the problem".

The "solid foundations" the Walter journal refers to is the first and very insignificant instalment of Mr. Robert Giffen's Board of Trade Labour Statistics called for four years ago by Mr. Bradlaugh and Mr Bart. The next instalment may arrive four years hence.

The complacent remark of the *Times* in regard to our English contribution to the Labour problem is not cynical; it is sincere, and therefore all the more ludicrous and stupid.

ARGENTINE RAILWAYS.

London, March 1st.

An extraordinary general meeting of shareholders in the North-West Argentine Railway Company, Limited, was held on Wednesday at the offices, 15, George Street, Mansion House, E. C., Mr. Edward Woods in the chair.

The Secretary (Mr. C. Knight) read the notice convening the meeting.

The Chairman proposed the confirmation of the following resolution, which was passed at an extraordinary meeting of the company held February 5th last:—Resolved: "That the directors be and they are hereby authorised to borrow or raise for the purposes of the company (in addition to the sum of £350,000 which they have already raised) the further sum of £150,000 upon the security of bonds, debentures, debenture stock, or securities of the company, or upon mortgage of, or charge upon all or any part of the property or undertaking of the company; and upon such terms as to repayment, rate of interest, price of issue, sale or otherwise, as they may think proper; and to make a general mortgage, or charge to, or vest any property in trustees for the purpose of securing any moneys so borrowed or raised." The line, the Chairman said, was open for traffic, and there only remained some buildings to be completed. They, however, wanted further capital to provide more rolling-stock to cope with the traffic which it was expected would shortly come upon the line.

Mr. Sutherland seconded the motion, which was agreed to unanimously, and the proceedings terminated.

BUENOS AYRES NORTHERN RAILWAY CO.

The ordinary general meeting of the above company was held yesterday, Mr. Seale Hayne, M. P., presiding.

In his opening remarks, the chairman remarked that this was the first meeting of the company since it was leased to the Central Argentine Railway Company, and it would be seen from the dividends which were about to be declared, that they were better than they had been led to anticipate at the general meeting on the 3rd August, 1888, when it was decided to complete the bargain with the Central Argentine Company. It would be observed that they had paid off £122,660 debenture stock, bearing 6 per cent interest, from funds provided by the Central Argentine Railway Company, under the agreement of 19th December, 1889. This agreement provides for the Central Company making advances to the company or their nominees, either by the issue of 4 per cent debenture stock of the Central Company at par, or making advance when required to the extent of £300,000 (including the above £122,660), at the rate of 4 per cent per annum. The amount hitherto payable by the company in debenture interest has, therefore, been reduced by fully £3,500 per annum, and a further reduction is expected when arrangements can be made for redeeming by exchange or otherwise the company's 5 per cent debenture stock. To the present this has amounted to £1,500 per annum, so that a yearly saving of £4000 has been effected. The directors regretted that they had not yet been able to come to a settlement with the Central Argentine Railway Company with regard to the stores taken over. The two companies were on most friendly terms, and no difficulties were anticipated upon this account. He could only presume that the delay arose from the fact that Mr. Brown, the ex-manager of the company, who was now managing the line upon behalf of the Central Argentine Company, as well as being manager of the Buenos Ayres and Ensenada Company, had been too busy to find time to go into the accounts. When this settlement was completed there would probably be a sum in favour of the Northern Railway Company, which would go to increase future dividends. It was also proposed, as the London staff would now be reduced, to recognise the services of some of the company's officers on account of their long services.

Mr. H. Doughty Browne seconded the adoption of the directors' report and accounts, which was carried unanimously.

The motion for the payment of the following dividends was then carried:—On the guaranteed preference shares 13s6d per share, making, with the interim dividend, a distribution for the year at the rate of £1 2s per share. On the preference stock £4 5s per cent, making, with the interim dividend, a distribution for the year at the rate of £8 10s per cent. On the deferred preference shares 14s per share, being at the rate of £7 per cent for the year. On the ordinary stock £3 4s per cent, making, with the interim dividend, a distribution for the year at the rate of £6 4s per cent.

The retiring directors, Mr. H. Doughty Browne and Mr. W. Oliver Dodson, were re-elected, and the auditors re-appointed.

BUENOS AIRES AND ENSENADA PORT RAILWAY COMPANY.

An extraordinary general meeting of the above company was held yesterday, Mr. J. W. Batten presiding, with the object of confirming the resolutions passed at the general meeting on the 12th ultimo. These resolutions have already been reported at length in our columns, and were passed unanimously. The following important particulars with regard to the mode of issuing the new shares were announced by the chairman :—

The directors proposed to offer 60,000 ordinary shares of £5 each, part of the new capital authorised by the special resolution of the 12th and 28th February, to the members of the company upon the register on the 6th March, 1890, in the proportion of one new £5 share for every £20 of their holdings.

Letters offering these new shares will be sent out about 15th March. The first instalment will be payable 12th April, and the balance by instalment of £1 per share at intervals of not less than two months.

It is proposed that the new shares shall be entitled to dividend at the same rate per cent per annum as the ordinary stock of the company, upon the amount for the time being paid up, from the dates fixed for payment of the respective instalments until 31st December, 1891, when the shares will be fully paid, and that after the ordinary general meeting in 1892 the shares will be converted into ordinary stock, ranking for dividend from the 31st December, 1891, with the ordinary stocks of the company.

THE SOUTH AMERICAN TRADE.

The following paragraphs are extracted from a report of an interview held by a *Sun* reporter with Mr. W. R. Grace, of the New York firm of W. R. Grace & Co., whose South American interests are so well known the world over and which fact gives to the views of Mr. Grace a very great importance :—

"The meeting of the Pan-American Congress must also be productive of a certain amount of good, for the delegates have had extraordinary facilities for becoming impressed with the enormous wealth and resources of the United States and will in turn make manifest to the South Americans our immense facilities for manufacturing all kinds of goods, from the most ordinary to those of the finest class. This conviction, combined with their good will and natural admiration for the progress which has been made in the United States, will attract merchants and purchasers to the facilities presented by this country. However, the volume of business cannot be anything like what is anticipated by some of our sanguine people, owing to the higher cost of manufacturing here in comparison with European countries. As a merchant long engaged in foreign trade, I know that no sentiment, no matter how strong, will ever induce people to purchase their goods in the dearer rather than the cheapest market, and this must be plain to any man in commercial life.

"I do not believe that commercial advantages would result to nearly the extent that people anticipate would ensue from the general subsidizing of steamers with the idea of establishing lines to South America; but I do most sincerely feel that to every point with which the mails are necessarily exchanged by our steamers liberal allowances should be made to them, sufficient to compensate them fully for the mail service, and to encourage the frequency of steam communication between different points in this country and South America. The general system of subsidizing, either by tonnage or by mileage, would be, I think, unjust to the manufacturing and other interests of the country; and I am convinced that if Congress passes any laws in that regard, the result will be great extravagance and much disappointment, without, as I have already said, materially aiding the development of commercial relations, for trade, I reiterate, is controlled by market laws, and is not to be affected either by sentiment or the specious policy of subsidies. If we want to develop our relations with our sister Republics of the south we must make an earnest of our desire by reciprocate trade, which necessitates some changes in our tariff; more especially as regards the free admission of the raw materials which those countries produce, and which are to-day to a very large extent excluded from this market by the prohibitive duties.

THE CRISIS.

Dear STANDARD,

At the time when so many have their own ideas as to the best manner of remedying the evils of the present situation, a few words from an outsider may be acceptable.

We have all of us had debtors in the course of our lives from whom we could not get our money. The first loss is the best loss and the sooner one makes up one's mind to this, the better. The banks owe no money which they declare themselves unable to pay and having sufficient influence and interest they shelter themselves from their business obligations under a Government decree, forcing us to accept their notes at their face value. Is it not very hard, under such circumstances, that the shareholders pocket large dividends, while we have to put up with a heavy loss. Of course, I do not understand these things. Now the press expresses surprise at the violent fluctuations in the daily price of gold. If you have a debtor who is unable and unwilling to pay, would you not sell such a debt to anyone who would give you ready cash for it, at an uncertain price governed solely by the impulse of the moment? The surprise seems to be that paper has not depreciated beyond its recent value. I would ask any man what would happen if the important railways were not engaged in constructing? The yearly earnings, which, in ordinary course, would be remitted to England, are now spent in the country in wages, and the dividends due in England are paid with money raised for the extensions. The cure for all this is very simple. If the banks cannot pay a hundred cents to the dollar, let them pay what they can. At present, the market value of our dollar is still forty cents, and we have lived to see the last Buenos Aires paper dollar capitalised at four cents. Emigration is completely stopped and people are returning to their "querencia." The Nord America alone took a thousand third class passengers back to Europe. Who can expect emigrants to come out here, work hard, put their savings in the bank and, without spending a cent of it, find themselves stripped of three-fifths of their property. Can anyone be surprised that the Italian laborer (wise in his generation) remits every cent of his earnings where he can always be sure of finding it whole and entire. All this points to the fact that the rulers have yet to learn that something more than a printing press is necessary to maintain credit. A return to specie payments would never be sufficient to restore confidence. An article added to the Constitution would alone effect the object prohibiting any Government of the day to turning the people's good gold into worthless paper by the stroke of the official pen In case of an emergency, they could always have recourse to selling exchequer bonds or treasury bills for what they would fetch without tampering with the money.

Believe me, yours truly,

VON—V.—VAN.

To the Editor of the STANDARD.

Dear Sir,

In reply to "Veritas's" inquiry, and gladly responding to your call (your to-day's issue), I beg to say that "Von" is German, "Van" is Dutch, whereas "V" may be an abbreviation of either of the two, the meaning of which corresponds with the English "of." The abbreviation, however, seldom stands for "Van".

To my knowledge, "Von" before a proper name invariably indicates German nobility. As regards "Van" before a proper name it is not indicative of Dutch nobility or of any distinction whatever, and is indeed very general in Holland, it being followed in many cases by the name of some town or village, probably showing that the family originated from such place. At the same time, however, Dutch noble families possess, as a rule, the "Van" before and or in the middle of their names (often consisting of some words, and consequently not conspicuous for shortness), and unless they be accompanied by the title "graaf" (count), baron, or Jhr = Jonkheer (corresponding with baronet) a foreigner may easily be puzzled. In this respect there is less difficulty for Dutch people, for, thanks to the comparatively small number of inhabitants of the Netherlands, the noble families are generally well known there. In conclusion, I may say that there are a great deal more commoners than noblemen (as the phrase goes) amongst the possessors of the "Van" in connection with their names.

I remain, dear Sir,
Yours faithfully,
Dutchman

Flores, March 23rd.

To the Editor of THE STANDARD:—

Dear Sir:—

As a reader of your esteemed paper and in reponse to your appeal, I beg to give the exact usage of the words "Von", 'V' "Van" in Germany and Holland.

"Von" is a sign of nobility only. "V" is as you already stated an abbreviation of "Von" and very seldom used except by the Press. "Van" is purely Dutch, and one of the best German dictionaries defines it as follows—"Van is only the translation of the German "Von", but not a sign of nobility.

I am dear Sir
Yours truly
Roberts Ruben

CONCERT IN SANTA FE.

One of a series of entertainments organised by the more energetic among the English community in Santa Fe was given in the English Assembly Rooms here on March 18th. We append the programme. The two quartets were admirably given, but were, perhaps, a litte too classical for most of the audience. Mr. Anderson's bass voice was heard to great advantage in "The Two Grenadiers" and in his duet with Mr. Leische. In response to a hearty encore for his singing of "The Bay of Biscay", Mr. Lucas gave "The Death of Nelson" in his well-known style. Mrs. Schnoor, who is always ready to help us, delighted everyone with her rendering of "Mignon." Mr H O Harris and Mr J W Handy supplied the humorous part of the entertainment, and the former's make-up as a policeman was very effective. Mr Handy was encored for "The Josser Huntsman", and in reply gave "Are you going to the Ball this evening?" Quite the treat of the evening was Mrs Johse's piano solo, technique and touch were alike perfect, and at the conclusion she received the most deserved encore of the evening. The concert was a success, and everyone seems glad to hear that it is the intention of the organisers to give an entertainment every three weeks,

"God Save the Queen."

Railway Items

There was nothing known in town yesterday about the Western Railway business It is, however, the general impression that Governor Paz will sign at any moment the decree calling for fresh bids.

The official organ of last evening published Dr. Araoz's report on the Andine Railway. The report is a recapitulation of the telegrams and letters we have published from time to time in this column. There is, however, one important detail which deserves mention, viz. the number of packages of damaged goods. According to Dr. Araoz, there were, at the time of his taking over the management of the railway, 2,857 packages in Rio Cuarto, mostly sugar, chocolate, kerosene, wine and machinery, all exposed to rain and the inclemency of the weather, owing to the dilapidated condition of the roof of the sheds. At Villa Mercedes there were, moreover, 4,371 packages of damaged goods.

According to our exchanges from La Plata the term allowed for the signing of the contracts for the following concessions has expired:

La Gama to Pigué: Mr. F. J. Meeks, transferred to the Southern Railway.

La Plata Tramway: Mr. J. Panthou, transferred to Mr. J. A. Bowen.

San Justo Tramway: A. J. Cernadas and Co.

We regret to announce the death, at Philadelphia, U. S. A., on February 18th, of Charles J. Harrah, at the age of 72. The deceased will, doubtless, be known to some of our readers as the pioneer of tramways in South America.—*S. A Journal.*

Mr. Angel Pringle has brought an action against the Pacific Railway Company to recover damages for having without cause or reason annulled an earthwork contract they made with him and given it to another party. He asks the court to confirm the contract made with him, and also to adjudge him 20 cents damages for every cubic metre removed without his consent which would be about $60,000.

The following is an extract from the speech delivered by the Chairman of the Central Argentine Railway at the last meeting held in London on the 20th ult.:—

"While I am speaking I should like to mention what appears to have been a misrepresentation with regard to what took place at the last meeting held in this hall. I mentioned that we had heard on December 12—I said December 5, but I should have said the 12th—that we had learned that our loss by exchange was £130,000 on the year. Well, now, exclusive attention appears to have been drawn among our shareholders and among some financial papers entirely to that figure which I then gave, without calling attention to the other figures which I gave at the same time, and which showed that that £130,000 of loss was by no means so serious as it appeared at the first blush. It was perfectly impossible to avoid a loss coming out at the end of the year, because, in the first place, we could not under any circumstances put up our tariffs as fast as the premium on gold was rising, and then of necessity we always have a large amount owing on current account at our bankers, and when the premium on gold is rising, these balances must be steadily sinking in value. Now, if you take the year 1887, when our traffic was much less than last year, being under £600,000, and the rise in the premium on gold in the year was not to be compared with that in 1889, our loss on that account was, in fact, £21,000, which was duly reported to you in our balance sheet and in our annual report, and the directors were perfectly prepared to find at the end of 1888 a very much larger loss than 1887. In fact, it was expected to be over £60,000, and the extra amount is attributable to the very sudden rise in the gold premium, coupled with the fact that Mr. Fisher did not put up the freights and passenger fares at all in proportion to that rise. At the same time, I would remind the meeting that I pointed out in my speech on February 3rd that our extra traffic receipts, and other miscellaneous items, would cover the greater part of the loss by the premium on gold, so that the net result of the whole year was that, whereas we told our shareholders and the public that we had taken £800,000 of traffic, it will really come out at £780,000—only a difference of £20,000. These are the figures that I gave in my speech, and I showed that even that difference of £20,000 would disappear, for reasons that I then gave.

EDITOR'S TABLE.

In spite of the crisis fever, everybody was as cool as a cucumber yesterday, or perhaps cooler, due to the great fall in the temperature after the rain. Would that the gold premium followed the temperature now as it did during the summer, but we fear that it and the thermometer have had a falling out and are going different ways in the world. National Bank shareholders all have the colic; and no wonder. A few short months ago the shares were at 370, and now there are none so poor to do them reverence at 110! Signs of the Zodiac, what a change!

It blew great guns at Montevideo yesterday. News was scarce. Stocks and shares have a three D's look. The decision on the many plans for the new port is the great question over the water just now.

The Revd. J. W. Fleming, B. A., will preach at the Protestant Church, Quilmes, on Sunday at 10.30 a.m.

The widow of the late President Flores of Banda Oriental, died yesterday morning in La Plata. The venerable lady only arrived here last week. The remains will be sent to Montevideo for interment.

In September last, the s.s. "Vedra" of the Houston line brought out some cattle for this port in charge of George Smith, who safely delivered them to consignees. Since then nothing has been heard about him, and we would feel much indebted for any information about him, to relieve the distress of mind of his wife and family in England

A young German clerk in one of the banks has just come in for a baron's title and £10,000 a year through the death of an uncle in Fatherland. He was scribbling away at his desk when an old gentle man entered and said he had *the pleasure* to inform him of the death of his uncle, etc. The new baron has already "requested the pleasure" of the company of a lot of friends to a grand dinner at one of the best cafes in town.

The marriage of Mr. Glaser and Miss Glasgow took place at the residence of the bride, in Belgrano, on the 25th inst. The bride looked most attractive in white, also her two lovely sisters, Miss C. Glasgow and Miss R. Glasgow. She was given away by her brother, Mr. John Glasgow, General Manager of the Santa Fe and Cordoba Great Southern Railway. Amongst the guests we noticed Mr. and Mrs. Fowler, Mr. and Mrs. Goodwin, Mr. and Mrs. Wertimer, Mr. and Mrs. Fraser, Miss Davinson, Miss Harms, Miss Fraser, Miss Perez, Miss Good, Miss Louberon, Miss Leighton, Mr. Wallis, Mr. Masters, Mr. Cones, Mr. Hurley, Mr. Pearson, and others whose names have escaped our memory. Both bride and bridegroom received numerous valuable presents. We wish the happy couple a perpetual honeymoon.

Our German friends in Montevideo, following up the initiative of the Austro-Hungarian Consul Becker, sent the day before yesterday a cablegram to Prince Bismarck expressing their regret at his retirement from office and thanking him for his services to his country. We hear that the German residents of Buenos Aires have not yet sent a similar telegram as there is a wish to attach as many leading signatures as possible to the message. Montevideo, however, has the advantage of priority and this is so be deplored as with a little more zeal the German residents of Buenos Aires could have outdone Montevideo in this respect.

Invitations to the inauguration of the La Plata Port, to take place on Sunday, were sent round last night. The President and suite will leave in gunboats, the invited guests in the Eolo and Jupiter, from the South Basin. Breakfast on board, banquet at La Plata, and special trains are the main features of the programme. The whole affair will cost an awful lot of money.

The Revd. M. P. Ferguson will preach on Sunday next, 30th inst, at "La Elcira," Bahia Blanca.

We are requested to ask for information about Mr Robert C. Ferguson, of City Quay Dublin, who was, some 20 years ago, on Mr Plowes's estancia, but afterwards crossed to Entre Rios, and remained for some time with Mr Somerville, near Villaguay It is three years since his friends at home have heard anything of him. Should any of our readers be able to tell us anything of him we shall feel obliged. We understand that there is "something to his advantage", if he can be found.

The 'Etrangers' Club elected the following new Committee on Wednesday night:—President: Dr. A. Bidali; Vice-president, Dr. E. Guyot; Secretary: A. Vignes; Pro-secretary: A. Raffy; Treasurer: Domingo Devoto; Pro-treasurer: P. Fontan; Vocales: Domingo Armendano, Eduardo Vilasa. Angel Tolome, Ignacio Martini. It is said that the new Committee are of a gay and festive turn of mind, and mean to open their term of office with a grand ball.

With sincere regret we learn by telegram from Rosario that Mr. John B. Munro, of the London and River Plate Bank there, was drowned on Tuesday at the Saladillo Baths, while bathing. He held an important post in the bank and was generally esteemed.

This is the age of wonders. Wooden hams and the finest nutmegs of the same material proved rather a failure, and humanity had to fall back on the pig and the East Indies; but it looks as if *wooden bread* is going to fare better than the spice and the material for sandwiches. Two famous German chemists have the matter in hand and feel certain that they will succeed in producing the "staff of life" from the fibre and sap of all kinds of trees. This will solve the Socialist question without help from Emperor William or any other man or monarch.

"Of course, no young lady should go out without a chaperon," said a London girl to her country cousin. "That may be so," replied the rustic damsel, "but every girl hasn't got a *chap of her own*, you know."

The late Mr. Samuel Fielden of Todmorden left £1,170,113 personalty and the following legacies:—Manchester Infirmary 3,000, Brompton Hospital 2,000, Lifeboat Institute 2,000, Blind Asylum 2,000 Asylum for Idiots 2,000, Discharged Prisoners Society 2,000, Ortophœdic Hospital 2,000, Clerks Orphan School 2,000, Society for the Prevention of Cruelty to Animals 1,000, Unitarian Mission 5,000, Unitarian Association 5,000, Unitarian Church Todmorden 2,500. Total £30,500. Mr. Fielden was a member of Fielden Bros., the owners of the Tambito Estate at Rio Cuarto which was sold off in fractions a year or two ago by Mr. Pilling.

A good deal has been said of late about the new plant "Ramie", and M. Hamonet of Formosa, son of our esteemed subscriber "The Good Gardener" of Calle Florida, has now flashed it on the world as the most decided success and the inevitable success of flax and cotton for textile fabrics. We inspected yesterday the most beautiful specimens of velvet, damask, lace, tablecloths, pockethandkerchiefs, thread, towels, sail cloth—in fact everything hitherto made with flax and cotton—all manufactured in Paris from ramie grown on M. Hamonet's estancia in the Chaco, where there are 5 millions of this wonderful plant growing. Manchester houses have sent out for specimens of the fibre, and are fully alive to the immense importance of the new plant, which looks in every way likely to prove for this country the same source of wealth that cotton has been for the United States. President Juarez is of the same opinion. H. E. paid M. Hamonet 'père' a long visit the other day and inspected all the articles we have referred to, being greatly astonished and pleased at what he saw. We strongly recommend all interested in the Manchester trade to call on the "Good Gardener", and also our lady friends, as they will see some beautiful fabrics in the new material.

The crisis must be tremendous, if judged by the number of protested bills, and empty offices to be let. Amongst the piles of protested bills this week are some of $100 and even $80, signed by people hitherto held to be rich. The first shots from the crisis have knocked the Fool's Paradise in which the country has been living about the ears of the inmates. The worst of it is that the foe is only popping with rifles as yet, while getting his heavy guns into position.

We have to thank the Geographical Institute for the 5th instalment of the Atlas of the Republic, including the provinces of Mendoza and Rioja and Neuquen Territory. The maps are very nicely done indeed.

There is a hole in the ballad of the La Plata Port inauguration, as the Archbishop will be unable to attend next Sunday, to bless the undertaking, it being the Sunday of Holy Week.

It is most unfeeling to indulge in financial joking at the present moment, though, the truth be told, Argentine financiering, for many people, is nothing but a bad joke from end to end. Nevertheless, there is no use putting such a very cruel and unnecessary question as "Has the new Salta loan for two millions sterling been successfully launched yet?"

Some more editorial tribulation is announced from grapy Mendoza, where the Fiscal, a Police Commissary and several others fell on three editors of the *Debate* and wounded them severely. The worst of this scandalous affair is that it took place in a court of Justice, under the very nose of the Judge. Of course, politics were at the bottom of it.

A Scotch commoner once asked Sheridan how he got rid of his Irish brogue. as he wished to avoid his own Scotch accent. "My dear fellow," said Sheridan, "don't attempt any such thing. The House listens to you now, because they don't understand you; but, if you become intelligible, they will be able to take your measure."

There will be no postponement of the opening of the Rural Society's Exhibition, which will take place on the 20th April, hail, rain, snow, sleet and a first-chop blizzard to the contrary notwithstanding.

The young Spanish thought-reader Pedro Valls tried some successful experiments on reporters of the *Prensa* on Wednesday. Yesterday afternoon he gave a seance in General Mitre's house, and at night in that of President Juarez.

The programme of the German Socialists has a good many germs of success in it, the strongest being the abolition of all work on Sundays, no standing armies, and no work of any kind for children; also free education for all, and one single tax on income instead of the innumerable taxes now in force. These are very different theories from those generally attributed to the Socialists by those who know nothing about them.

The La Plata Government has at last put its heel on the shameful Pension abuse, impelled by the sharp-pointed toe and thick-soled boot of stern necessity. For the future all pensioners will have to prove their identity. It is notorious that innumerable pensions have been paid for years and years in the names of persons long since dead, or missing, or out of the country.

The Lord Mayor denies the soft impeachment that he contemplates a trip to Europe to try and squeeze some money out of the French or German bankers; of course the English bankers would not give a brass farthing. If his lordship should change his mind and go, he should take the Governor of Salta with him, to see how much of the two millions sterling loan of that province can be floated.

A beautiful widow, having let her villa for the season, was asked what induced her to desert such a charming retreat.—"Too much balcony, and too little Romeo," was the reply.

Ramallo is badly in want of a licensed doctor, as the Municipality has turned out two amateur practitioners who have done good service in the place, curing many and killing none.

The latest brilliant idea in Tucuman is to give a bounty on the planting of eucalyptus trees. Except for drying up marshy land, the eucalyptus is not much of a tree.

A pretty anecdote of the late Mr. Biggar is told by the Rev. Harold Rylett, a former colleague of his, which illustrates the capacity of Joey B. as a dry nurse to Mr. Parnell. "It was in the thick of the Land League fight," says Mr. Rylett, "and half a score or more of us were assembled in a private room of the Imperial Hotel in Dublin. Mr. Parnell was of the party. But Joe Biggar was not. He had no taste for revels, and the jinks that night were a little high. But at twelve o'clock the door suddenly opened and Joe Biggar came quickly in, and marching up to Parnell he gave that gentleman an unceremonious tap upon the shoulder, saying in his jerky, imperative, yet genial way, 'Now, Parnell come along, it's time to go to bed.' Biggar would not sit down. 'No,' he said, 'it's time to go to bed.' And he stood there, waiting with his hat on his head and his rug on his arm. Mr. Parnell said not a word, but calmly rose, and bidding us 'Good-night', took his departure with Joe Biggar in close attendance. Everybody sat silent until the door closed, when"——. Well, Mr. Rylett mentions one of the things that was said, but not the confidential comment of the lieutenants on their chief and his nurse.

The new ironclad building in England for this country is called the Necochea; she is 4000 tons burden, and intended for coast defence. This ship will make a big hole in the reductions in the Budget.

ST. JOHN'S ANGLICAN CHURCH.

Notwithstanding the unfavourable state of the weather on Wednesday last, a large number of people, encouraged, no doubt, by a few gleams of light which flooded the city as the sun was going to set, assembled in the above church on the occasion of a Recital being given by the talented organist, Mr E. F. Barnes, whose well-known musical abilities, combined with a most attractive programme, were a sure guarantee "a priori" of an exceedingly enjoyable evening.

The execution of Guilmant's "Grand Chœur", with which the recital opened, showed great determination and firmness of touch, whilst Batiste's well-known Andante gave ample scope for the great feeling and exquisite expression which invariably characterizes Mr. Barnes's rendering of soft passages.

Mendelssohn's Third Sonata is peculiarly well adapted to the resources of the organ of St. John's, the pedals and open diapason being heard to great advantage in the Fortissimo with which this piece commences, and which, contrasted with the concluding Andante Tranquillo always conveys to the listener the charming effect of a storm being followed by a perfect calm. The frequently recurring subject in this sonata was kept prominent, and was well sustained throughout.

We were glad to observe that the essentially orchestral character of Sterndale Bennet's Barcarolle was carefully preserved, though it is to be regretted that the somewhat meagre resources of the organ in this respect made the task a difficult one even for the best of players.

At the commencement of Batiste's Offertoire in D. the performer unfortunately took the time too fast; however, ere reaching the finale chorale he had evidently regained the control which he had momentarily lost.

The pretty and effective Berceuse of Gritton appeared to be greatly appreciated and one of Lefebure-Wely's postludes formed an appropriate conclusion.

Seldom in any church have we heard a hymn sung with such magnificent effect as was the Old Hundredth at the conclusion of the recital, the great volume of tone, accompanied by varied harmonies, being most imposing.

The offertory, which, we believe, amounted to a considerable sum, was in aid of the Organ fund, a new instrument being very sadly needed. We sincerely congratulate the organist and congregation of St. John's on the success of Wednesday night's recital, and trust the next, which will take place about the end of the ensuing month, will be in every way as satisfactory.

Dr. J. Collis Browne's CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne.s Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain His Excellency the Viceroy's Chemists.
Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s.9d., 4s. 6d,, and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Piracy and Imitations.

Messrs. MOORE & TUDOR,
Buenos Ayres.
Dear Sirs.—
Yesterday and to-day I gave the "Toronto Mower" I bought from you some months ago a fair trial.
I am highly pleased with it and consider it one of the best systems (if not the best) of all those that have come under my notice. It works remarkably easily and does not make half the noise of other systems known to me.
I can cut a square of Alfalfa in 3 hours and a half without pressing my horses.
The machine is certainly all you told me it was.
I am, Dear Sirs,
Yours truly,

THE STANDARD, printed and published every morning at the STANDARD Printing Office, No. 176 Calle Maipu.—Editors and Proprietors M. G. & E. T. MULHALL.

The Foreign Affairs Minister, nothing daunted by the luke warm support of the farmers, has resolved on shipping another batch of sixty steers in the Zaandam, which sails in the beginning of next month. The animals are all from Mr. E. Ramos Mejia's estancia, half-bred, over 600 kilos weight on an average per head, and fairly tame. They will be shipped to Boulonge-Sur-mer. Mr. Gilbert, a well-known French breeder, has asked a friend of his in this city to forward a batch of Argentine novillos, though for what purpose is not stated.

If the estancieros cannot see their way to making the export of live stock a paying business they cannot at all events lay the fault at the door of the Government who have done all in their power by a series of experiments to pave the way for starting the business on a large scale. It must be confessed that farmers have certainly as yet not taken to the idea kindly, in spite of the splendid results obtained. It is urged that the class of animal required is not only scarce but would sell almost as well at home as abroad, a genuine difficulty, only to be overcome by greater attention towards refining the herds and fattening the steers.

The thundering drop in the sovereign stock set the whole market agog at the second hour. The first lot was posted at 105, then some lots were marked up fluctuating between 110 and 106, and the business was wound up by a "gato" lot of 200 at 118. The other stocks were also weak,but did not give way to such an extent, and it is said now that the sovereign stock will soon be below par—a poor look-out indeed for such a splendid dividend paying stock. As to the premium, it was a trifle stiffer, though nothing to speak of and the business done was small. Cedulas were a little firmer.

The following is a summary of operations effected this evening at the second ring:—

A notice was posted on the Bolsa to-day by the National Mortgage Bank, reminding holders of cedulas that all those numbers drawn (sorteados) cease to bear interest from the date of drawing. This notice would seem to intimate that holders of cedulas have not applied for payment, which would be a strange thing in these hard times.

The s.s. Vittoria has arrived in Montevideo from Genoa, but, owing to rough weather, has not yet been given entry.

A late London exchange says:—"The heavy fall in Argentine securities during the past two days has been sufficient to give the holders of Cedulas what the French call an 'emotion.' The gold premium on Saturday showed an advance of about 5, and yesterday, though Reuter issued no report during market hours, it was stated that there had been a further rise: but this by itself scarcely explains the fall. That is due, most probably, to the manner in which the December settlement on the Buenos Aires Bourse was tided over. At the time most serious difficulties were anticipated, but, to everyone's surprize, none occurred. Now, however, it is stated by those who ought to know that some of the largest dealers on the Bourse were then allowed two months' grace, and that, as a result, the settlement at the close of this month, when these old engagements have to be liquidated, is sure to be one of extreme difficulty and danger. The approach of the February settlement and the fact that the Argentine Republic has little or no gold to withdraw from abroad probably account for the weakness of all Argentine securities."

Two well-known "escribanos" protested yesterday no less than 127 "pagares," some for small amounts and all with signatures supposed to be of the best. This is a very significant sign of the times.

Messrs. Luis Godoy and Co. sold yesterday the following properties:—

House in Calle Venezuela and Entre Rios, for 15,000 Nats.; buyer, Mr. Manuel Crovetto.

Small house, Comercio No.1909, for 10,000 Nats.; buyer Mr. J. Berri.

List of passengers arrived per steamer Wordsworth (Captain Hairby), which left Southampton March 2nd:—Mrs A J Erskine, Mr A D Dunbar, Mr M Talbot, Mr E J Evans, Mr J T Lancaster, Mr L A Wallace, Mr F G Cross, Mr W J Wythes, Mr A E Bechstein, Mr W A Colley, Mr and Mrs D Morris, Mr F Bennett, Mr P W Cook, Mr J Oliver, Mr W Anderson, Miss E Anderson, Mr T B Shimwell, Mr T Crowther, Mr R C Tetley, Mr and Mrs Muldrum, Mr W Wood, Mr E Haynes, Mr S Norton, Miss Hannah Young, Mr M Klein, Mr J Bailey, Mr A W Roscow, Mr H Willing, Mrs M Hardcastle and family, Mrs Lucy Young and family, Mr F Deacon, Mr G Deacon and Mr J Elder.

The Buenos Aires Grand National Tramways Company has found no difficulty in placing debentures to the tune of £220,000 on the London market. Six per cent. was the interest offered, and investors came forward in large numbers and promptly took them off the market at £105 per £100 bond. It will be remembered that over £200,000 preference shares were made in March last year, bearing interest at the rate of 7 per cent. It is understood that the tramways, complete and equipped, will be handed over to the company by March 31, 1890, the day stipulated in the contract, and an experienced manager has been engaged, so that the traffic may be commenced directly the line is opened.

Captain Clark-Kennedy, D.L., has been elected to the board of the Grand National Tramways of Buenos Aires, in place of the late Sir Robert Dalyell, K.C.I.E., C.S.I.

It is cooling, refreshing and strengthening so pure, smooth and ripe, and agreeable to the palate as to invite the attention of connoisseurs.

ON 'CHANGE.
PRICE OF GOLD TO-DAY.
First Ring............. 258.00
Second Ring........... 259.00

Friday March 28th.

As the end of the month approaches, the panic birds begin to sniff the air to test the presence or absence of the usually inevitable "descubierto." It is contended by the bulls that a shortage does exist, not from this month probably, as operations have been on a comparatively small scale, but from last month. The difficulties of the last liquidation have been arranged to a certain extent, but they have left an inheritance for the next coming that may bring on chaos again and plunge the whole market into the inextricable confusion that attends any hitch in the settlement. It is premature, nevertheless, yet to venture any opinion on the point. Gold keeps steady and stocks collapsing, a state of affairs none too flattering to buoy up optimistic expectations; but, after all, it may be due more to the cribbed and cabined state of the market generally than to any immediate squeeze from the coming liquidation. However it may turn out, the prospects of a radical reaction are still too distant and hazy to give much room for hope.

The fall in National Bank Shares which convulsed the market yesterday continued to-day, and has now assumed such proportions that holders may reconcile themselves to the probability of soon seeing the sovereign stock under par. What a change! Yesterday at 360, for it seems but yesterday that they were on the crest of the boom, and to-day languishing, neglected and despised at a miserable premium. Such are the vicissitudes of Bolsa fortune and fame. To think that they have even at par touched bottom would be, however, a fatal error. They may come much lower still, and probably will, as many who have clung on to their shares to save the quotation will now pitch quotations and shares to the wind to save something or anything. To-day they opened at 110 and left off staggering at 104. Catalinas are going a-begging at 27 and Constructors were absolutely friendless. Cedulas were a trifle better, but the improvement cannot be relied on. Gold, however, kept more or less steady, closing at 258 for cash, 257.50 for to-morrow, 258 for end of month and 262 for end of April.

The following is a summary of operations effected this afternoon during the first ring:—

Another much discussed topic on 'Change to-day was the *Nacion's* correspondence anent the European bankers' and financiers' views of the situation here. The fact that all concurred in recommending the collection of the Customs' dues in gold was much commented on; here, this measure, strange to say, finds little favor, but as it is a "sine qua non" remedy of the European specialists, it is more than probable that sooner or later it will be put in force. That a loan cannot be placed without mortgaging the Customs' returns is also pretty plain and unpalatable, precluding all hopes of fresh metal for some time. The Government is also out of favor in Europe and it can easily be gleaned from the tenor of the questions that a different cast is looked for at the next election. The interview of the *Nacion's* correspondent with Mr. Cahen is highly interesting. It will be found "in extenso" in another column.

The following is the movement of the port:—

The s.s. Citta di Genova cleared to-day a full ship.

The s.s. Bellena, which had gone aground at the mouth of the Boca Canal, got off today.

The s.s. Rosario touched at San Vicente yesterday en route for Genoa.

The steamers Heliades, Bellarden, Marina, Zeta, and the barques Passalt and Lazaro Bianchi entered the Boca yesterday.

The s.s. Delta leaves the Boca on Sunday for Corrientes.

The s.s. John Elder leaves Montevideo on the 30th for Brazil and Europe, and the Aconcagua on the 31st from same port for the Pacific.

The s.s. Pampa will leave on the 31st for Santa Cruz and Lisbon.

Mr. Cadmus was enveloped in friends to-day on his appearance on 'Change. He has arrived back from Hamburg with his faith in the country and its prospects unimpaired, though he finds affairs here sadly changed. Mr. D. A. Shennan was also welcomed.

A large number of the passengers who arrived out in the R.M.S. Magdalena, we hear, go back in the Atrato, which will leave them but a short time in which to form impressions of the difficulties and wants that the crisis has created. We presume, however, that their intentions were confined to a flying visit, and there is nothing alluring to induce them to prolong it.

In exchange, brokers reported first-class bills passed to-day at 48d., though there is but little doing.

The La Plata Government are evidently in a hurry to realize some of their properties, as a decree made its appearance yesterday authorizing Messrs. Aristegui & Figueroa to bring the Port lands again to the hammer, at least that part not sold. The upset price has now been lowered to the mortgage on the lands, so that purchasers buying at this rate have only to take over the Cedulas, paying the difference between the market and the issue price. The date of sale will be fixed and announced by the auctioneers.

Dr. Quirno Costa, Home Secretary, paid a visit to the Lands and Colonies' Office yesterday, with a view to ascertaining the extent of National lands ready for colonization. The Yerua, Belleville and Rio Cuarto Colonies are all now perfectly fit to receive immigrants, who will be sent in time to put in the crops.

The article in to-day's *Prensa* on the Province of Buenos Aires' budget for 1890 was read by everyone on 'Change and created no small impression, due to the clearness with which the bolstered up state of the Provincial finances is set forth. The budget is in fact an array of impossible figures put together to deceive the public. To begin with, the service of the foreign debt is calculated at a gold premium of 60 o/o when the latter already stands at 160 o/o, whilst the Banco Hipotecario is expected to contribute over a million dollars, although it is well known that, to meet its quarterly services, it has to have recourse to the Provincial Bank. Furthermore, the La Plata Port lands represent another million and the National subven-
